

THINK BEFORE YOU POST AWARENESS...

- An alarming number of teens post inappropriate or sexually provocative pictures to get attention. Once a picture is posted online, anyone can have access to it and use it for exploitation. Teens should never post pictures they wouldn't want posted around their schools for everyone to see.
- REMEMBER - once you post it, send it, or text it - YOU CAN'T TAKE IT BACK. You have no control over where the images go on the Internet or among your friends, or even to a "stranger". You can not pull it back and shred it once the "send" button is activated.
- This can have consequences to YOU, your education, job, parents, school, and YOUR FUTURE.

CONSEQUENCES...

Child pornography means sexually explicit visual material which utilizes or has as a subject an identifiable minor LESS THAN 18 YEARS OF AGE. Producing or taking photographs of yourself or sending them to other people (i.e. boyfriend/girlfriend, friends, etc.) can lead you to BIG trouble. Possession AND Distribution of Child Pornography
